To Our Friends and Customers

We take pleasure in presenting to our many friends and customers this Catalogue, listing the varieties of Bulbs, Flowers, Roses, Shrubs, Trees, Garden, Field and Flower Seeds, that are suitable for Fall planting. At the same time we take this opportunity of

thanking you for your patronage in the past and hope to have a continuance of same. To those of you who have used Nicholson's Purity Brand Tested Seeds, we need only say that we shall continue to take the same painstaking care in filling all orders with the very best quality of seed,

just as we have done in the past, all tested for purity and germination in our own seed laboratory.

We also use every care in selecting our bulbs, plants etc, to send out only the best that we can possibly supply. We hope to be favored with your future orders, and will always give them our prompt and careful attention.

ROBERT NICHOLSON SEED CO.

Follow These Directions When Ordering

We respectfully request customers to follow these instructions and there will be no delay in getting their orders out promptly.

HOW TO ORDER. Please be careful to sign your Name, Postoffice, Rural Route, State, on every order. Be sure to give your nearest Express office, or if you desire seed forwarded by freight, your nearest Railroad station. Write plainly.

TERMS. Cash with order. Customers will please remit by Postoffice, Express orders, or checks on Dallas or New York Exchange.

ORDER EARLY. It will greatly facilitate shipments if orders are sent in early. We endeavor to ship out all orders day received but sometimes it is impossible during the rush season.

NON-WARRANTY. We send out seeds, bulbs, plants, etc., that will, to the best of our belief, give entire satisfaction. These articles sometimes fail through improper treatment, planting too deep or too shallow, or in too dry soil. Therefore, Robert Nicholson Seed Co. gives no warranty, expressed or implied, as to the description, quality, productiveness, or any other matter of any seeds, plants, bulbs, etc., that we send out, and will not be in any way responsible for growth. If the purchaser does not accept the goods on these terms we must be notified at once and we will give instructions for disposition of goods.

THE FLOWERS
OF SPRING
MUST BE PLANTED
IN
THE FALL

Bulbs for

Plant a few bulbs in joy the most beautiful the spring. No other so little attention and yet make such a beautiful show in the early spring when flowers are scarce as Hyacinths, Tulips, Narcissus, Crocus, etc.

A few years ago we used to think that Tulips could not be grown successfully in Texas. The trouble was we did not know which varieties to plant. We have now found out the varieties that are best adapted to Texas, and bulbs of the right kind can be grown in Texas and produce as fine flowers as anywhere in America.

the fall and enjoy the most beautiful flowers early in the spring.

No other so little attention and yet make such a beautiful show in the early spring when flowers are scarce as Hyacinths, Tulips, Narcissus, Crocus, etc.

Winter and Spring Blooming

To have best success in growing bulbs, the beds where they are to be planted should be dug deeply early in the fall. Bulbs do best planted in September, October and November, in good, well drained beds, the soil of which has previously been dug 12 to 18 inches deep, and enriched with Bonemeal. The proper depth to plant bulbs is as follows: Hyacinths, 5 inches deep and about 6 inches apart. Narcissus the same as Hyacinths. Tulips 4 to 5 inches deep and 4 to 6 inches apart. After the bed has been planted it is a good idea to cover it about 2 inches deep with well-rotted leaves or litter, or some well-rotted manure.

NUMBER OF BULBS REQUIRED FOR CIRCULAR OR OVAL BEDS

Diameter of bed, 3 feet4	inches apart—95 bulbs	6 inches apart—37 bulbs
Diameter of bed, 4 feet4	inches apart—127 bulbs	6 inches apart—61 bulbs
Diameter of bed, 5 feet4	inches apart—225 bulbs	6 inches apart—91 bulbs
Diameter of bed, 6 feet4	inches apart—271 bulbs	6 inches apart—127 bulbs
Diameter of bed, 7 feet4	inches apart—410 bulbs	6 inches apart—169 bulbs
Diameter of bed, 8 feet4	inches apart—469 bulbs	6 inches apart—217 bulbs
Diameter of bed, 9 feet4	inches apart—650 bulbs	6 inches apart—271 bulbs
Diameter of bed, 10 feet4	inches apart—721 bulbs	6 inches apart—331 bulbs

Hyacinths

For Outdoor or Indoor Planting

The culture of Hyacinths is very easy. For early spring blooming out of doors, the bulbs should be planted 5 inches deep. Plant in Sept., Oct. and Nov. as early as the bulbs can be had. After planting give the beds a covering of well rotted leaves or litter, or well rotted manure.

For Pot Culture

Hyacinths are excellent for indoor growing. See that the pots are well drained and use the best soil possible. Plant the bulbs about an inch below the surface. Water thoroughly and put away in a dark cellar, or stand them out of doors and cover pot and all with about 8 to 10 inches of sand. Let them stand this way about 6 or 7 weeks or longer if necessary. The tops should be 4 inches high before brought in the house to the light. If

brought in sooner the Hyacinths will make short inferior flowers. A 4-inch pot will hold a good sized single bulb, and a 6- to 8-inch pot will hold 3 to 5 bulbs. The sprouts are yellow by keeping them covered in this way but this does not matter, as they turn green quickly as soon as exposed to the light.

If bulbs are wanted by mail add to our prices 10c doz.; 50c 100 extra.

SELECT SINGLE HYACINTHS, First Size

Fancy selected Dutch Hyacinths for pot growing or outdoor planting.

Gertrude. Bright rosy pink.

Gigantea. Flesh pink.

La Victoria. Brilliant red.

La Grandesse. Pure white, large and fine.

Grand Maitre. Bright porcelain blue.

L'Innocence. Pure white.

King of the Blues. Deep glossy blue.

Queen of the Blues. Light silvery blue.

City of Haarlem. Bright golden yellow.

Yellow Hammer. Fine golden yellow.

Price of above, each, 15c; doz., \$1.50; 100, \$10.00.

SELECT SINGLE HYACINTHS, Second Size

For bedding, the second size named Hyacinths are ideal, being all one height and uniform in appearance. They are also suitable for pot growing.

Gertrude. Bright rosy pink.

Gigantea. Flesh pink.

La Victoria. Brilliant red.

La Grandesse. Large fine white.

L'Innocence. Pure white.

Grand Maitre. Bright porcelain blue.

King of the Blues. Deep glossy blue.

Grand Lilas. Light porcelain blue.

Johan. Pale blue, very large.

Price of above, each, 10c; doz., \$1.00; 100, \$8.50.

French White Roman Hyacinths

Roman Hyacinths are fine to grow in pots for early bloom. Can also be planted out of doors. To have best results with Roman Hyacinths plant 4 to 6 bulbs in a 5- to 7-inch pot. Afterwards put these in a dark cellar or put them out of doors and cover them, pots and all, with about 8 inches of sand and let them stand until the tops are about 2 or 3 inches high. Then bring them in the house and they will soon bloom. 15c each; \$1.50 doz.

Roman Hyacinths.

Darwin Tulips

This is the variety of Tulip we have found will grow the most successfully in Texas. The Breeder Tulip, also the Cottage Tulip can also be grown successfully. There is nothing you can imagine that is more beautiful in the flower line, than a bed of Tulips when in bloom. They will attain a height of from 1 to 2 feet and their gorgeous colors make a display in the spring that will be long remembered. If you grow Tulips once you will always want them again. Some people in planting make solid beds of one color, others plant the middle of a bed in one color and make a border of another color. Tulips usually bloom in April in Texas. If the weather is dry when blooming give them plenty of water. Bulbs should be planted in Sept., Oct. and Nov. about 5 inches deep and about 4 to 6 inches apart in the beds. After planting give them a covering of about 2 inches of well rotted leaves or litter, or well rotted manure. After the bulbs have bloomed let the tops ripen up naturally, cut the seed pods off but not the leaves. You can then plant other plants in the same bed between the Tulips, and have your beds full of flowering plants all during the summer. In the fall of the year fork the beds up lightly examine the Tulip bulbs and see if they are in good condition but do not disturb their roots. Work in some bone meal and then give the bed a cover of well rotted leaves or litter, or some well rotted manure. If the bulbs are in good condition they will come up and bloom nicely the second year. After this it is well to dig them up and plant new bulbs every other year.

Darwin Tulips.

If to be sent by mail add to our prices 6c per doz.; 25c 100, extra.

We consider the following list of Tulips to be the best to plant in Texas.

Gesneriana Spathulata. Rich scarlet blue-black center	.10	.85	6.50

Cottage Tulips.

Narcissus and Daffodils

There is no more beautiful flower than the Narcissus and Daffodil. They are easy to grow, and bloom in the spring when flowers are scarce. After blooming the tops die down and the bulbs stay dormant all during the summer, and then the following spring they come up and bloom again, and continue to bloom from year to year. All that is necessary is to dig them up occasionally and divide the roots, so that after you once buy these bulbs they continue to bloom indefinitely. They can be grown in any part of the garden. They make beautiful beds and can also be planted in front of shrubbery. After the tops die down other plants can be planted in their place. There has been a great improvement in Narcissus and Daffodils in the past few years, and some of the flowers now grow to enormous size. We call your attention to the King Alfred Narcissus, which is the largest and most beautiful flower we have ever seen, and should be included in every collection. They are perfectly hardy. Plant the bulbs about 5 inches deep and about the same distance apart.

If to be sent by mail add to our price 6c doz., or 25c 100 extra for postage.

Large Single Trumpet Daffodils

King Alfred. The King of yellow Each Doz. 100
Daffodils. Tall, vigorous, golden yellow flower of elegant form, the expanded trumpet measuring 2½ inches in diameter; this is the largest and finest Daffodil grown. You surely will like it \$0.20 \$2.00 \$14.00

Polyanthus Narcissus Growing in Bowl.

Chinese Sacred Lilies or Joss Flower

This is a species of the Polyanthus Narcissus introduced from China. The bulbs are large and throw out several flower spikes bearing clusters of large, waxy white blossoms with yellow centers, of a most delicious fragrance. These may be grown in pots with soil, or in bowls of water with pebbles, the same as Paper-white Narcissus. Some people plant the Chinese Sacred Lily in the middle of the bowl and surround it with Paper-white Narcissus. This makes a nice combination. 25c each; \$2.50 per doz.

Crocus

These are most effective for borders and beds, also for planting in clumps among shrubbery. Planted in the grass on lawns Crocuses are also very effective. They are easy to grow.

Double Narcissus

These are the old-fashioned Daffodil, and are very popular with a great many people.

	Each	Doz.	100
Alba Plena Odorata. Very sweet scented, pure white	\$.10	\$.55	\$3.50
Von Sion. The true, double Daffodil. Color pure golden yellow.....	.10	.65	4.50

Polyanthus Narcissus

The Polyanthus, or Bunch Flowered Narcissus are not only beautiful but exceedingly fragrant, and may be grown in bowls or glasses, under the same treatment as for the Chinese Sacred Lily. Can also be planted out-of-doors if wanted. Also suitable for window garden, very free flowering. They are very fragrant, from 6 to a dozen flowers each. They are very fragrant. Paper-white Grandiflora is the best variety. When grown in bowls it is a good idea to plant 5 or 6 bulbs in the bowl with enough gravel or rocks to hold them in an upright position. Keep the bowl full of water and place near a window where they will get plenty of light and sun, and they will bloom in a very short time. By planting these bulbs at intervals of a week or two apart you can have beautiful flowers for your home all during the winter months at a very small expense.

	Each	Doz.	100
Fancy select bulbs	\$.10	\$.75	\$5.00

Landsun Bowls

For Growing Paper-white Narcissus and Chinese Sacred Lilies

These beautiful bowls are fine to plant Chinese Sacred Lilies and Paper-white Narcissus in. All they require is some rocks, to support the bulbs, and keep the bowl full of water. This is a very handsome bowl. Price, \$2.25 each, not prepaid.

Can also supply glass bowls if wanted, at from 50c to \$1.00 each.

Double Narcissus Von Sion.

Border of Peonies.

Peonies

There are very few flowers that are as beautiful when in bloom in the spring as the Peony. They require good rich soil and plenty of water during the blooming period. The ground should be well prepared before planting, should be dug from one to two feet deep, and it is a good idea to work in some well rotted manure or some bone meal. A little slack lime is very good to use also. The best time to plant Peonies is during the fall months in Oct., Nov. and Dec. They then make roots during the winter and are ready to bloom in the spring. Peonies do best planted where they have partial shade from the hot evening sun. They do nicely planted in front of shrubby beds, and other places where they are partially shaded. n planting, set plants so the crown or eyes of the plants are about 2 inches below the surface of the soil. During the summer months it is a good idea to give them a mulch of rotted leaves, grass or litter, so as to keep the ground from becoming hot and dry. If given care in this way they will continue to come up and bloom from year to year.

Duchesse de Nemours. Cup shaded sulphur white flower, fading to pure white	Each	Doz.
	\$.50	\$5.50

Clump of German Iris.

German Iris

POPULARLY KNOWN AS FLAG LILIES

These are hardy plants whose value in the garden cannot be over-estimated. They are easy to grow, free flowering, drought resisting, and fine for cut flowers during the early spring. They fit into many portions of the garden most admirably. They require very little care. Plant any time during the fall or winter. We have a large stock of Iris in the following colors:

	Each.	Doz.
Purple, white, and lavender, large strong plants	\$.25	\$2.50
Smaller size plants.....	.15	1.50

Evergreens

Evergreens are always in favor for landscape work. Their deep foliage makes a beautiful background for the brilliant colors of summer, but it is in the winter when shrubs are barren of color or foliage, that the beauty of the Evergreen is appreciated. Be very careful when you receive Evergreens, not to let the roots get dry.

Abelia Grandiflora

A beautiful evergreen shrub of dwarf, but graceful growth. Has beautiful bright, shining green leaves, which assume a metallic hue in winter. From early summer until frost, the bush bears in profusion, clusters of small, fragrant, trumpet-shaped flowers, tinted outside with pink, and waxy white within. Beautiful as a specimen, or in massed planting. In shrubbery beds should be planted at the front. Price, strong plants 75c and \$1.00 each.

Box, Dwarf

This is the variety so extensively used in the old-time gardens for edging walks and beds. It is of slow growth; bushy plants 8 to 10 inches high. Price, 30c each; \$3.00 doz.

Evergreen Euonymus

This is probably the most popular evergreen that we have. It is largely used for hedging, also for growing as specimens. Leaves are broad, of a dark green, glossy surface.

6 to 9 inches, price30c each; 3.00 doz.
12 to 18 inches, price75c each; \$8.50 doz.
18 to 24 inches, price1.00 each; 11.00 doz.

Cedrus Deodara

This is one of our most beautiful evergreens, attaining a height of 50 feet. Splendid to grow for individual specimens. Small size, \$1.00 each; larger size, \$5.00, \$7.50 and \$10.00 each.

Irish Juniper

Slender, tall growing evergreen, foliage a bluish green; fine for planting in cemeteries or other places where a formal effect is desired. \$1.50, \$2.50 and \$5.00 each.

Magnolia Grandiflora

Every one is acquainted with the Magnolia. Has dark, glossy evergreen foliage, and immense, fragrant, waxy, white flowers, followed by bright red seed pods. Small size, \$1.00; large size, \$2.50 and \$5.00 and \$10.00 each.

Sweet Bay

Beautiful evergreen shrub with dark, bright, green leaves. Price, \$1.00 each.

Pyramidal Arbor-Vitae.

Wild Peach

A beautiful evergreen tree; foliage dark green and glossy; leaves small. Attains a height of 20 feet. May be pruned or sheared to any desired shape. Price, \$1.00, \$2.00 and \$5.00 each.

Arbor-Vitae

One of the best and standard evergreens. Can be trimmed in any shape desired.

Chinese Golden. Tall growing and spreading habit. Price, \$1.00, \$2.50 and \$5.00 each.

Chinese Compacta. A more compact form of the Chinese. Price, \$1.00, \$2.50 and \$5.00 each.

Chinese Pyramidal. Forms a tall, narrow pyramid. Price, \$1.00, \$2.50 and \$5.00 each.

Hovey's Golden. This is one of the most beautiful, compact growing varieties. Price, \$1.00, \$2.50 and \$5.00 each.

Rosedale. Foliage pale green, feathery in effect; very pleasing when combined with other shades of green. Price, \$1.00, \$2.50 and \$5.00 each.

Italian Cypress

This is a beautiful, tall, tapering growing evergreen. Grows very much like the Lombardy Poplar in shape. Largely used to plant as specimens in front of homes. Nice, young plants 2 to 3 feet. Small size, \$1.00 each; large size, \$2.50, \$5.00 and \$10.00 each.

Red Cedar

This is the well known Cedar, and is one of our best evergreens. Can be trimmed, if wanted, to any shape desired. 75c, \$1.00, \$2.00 and \$3.00 each.

Cape Jasmine

Beautiful plant, with dark green, glossy leaves. In the spring has most fragrant, beautiful, white flowers. In North Texas should be protected during the winter. Strong plants, price, 75c and \$1.00 each.

Ligustrum Japonica - Japanese Privet

Beautiful, ornamental tree, with broad, green leaves, bearing panicles of white flowers, followed by purple berries. This tree can be grown in bush form, or can be trimmed into symmetrical, shaped tree form. Price, 75c and \$1.50 each.

Cape Jasmine.

Amour River Privet Hedge.

Shade Trees

Elm, American White or Broad Leaf

This is considered to be the best shade tree.

6 to 8 feet.....50c each

Poplar, Carolina

Rapid grower, and no cottony blooms.

6 to 8 feet.....50c each

Honey Locust

Hedge Plants

Box, Dwarf

This is the variety so extensively used in the old-time gardens for edging walks and beds. It is of slow growth, bushy plants 8 to 10 inches high. 30c each; \$3.00 doz.

Evergreen Euonymus

This is probably the most popular evergreen that we have. It is largely used for hedging, also for growing specimens. Leaves are broad, of a dark green glossy surface.

6 to 9 inches.....\$.30 each; \$2.50 doz.

12 to 18 inches......75 each; 8.50 doz.

18 to 24 inches.....1.00 each; 11.00 doz.

Amour River Privet

A fine hedge plant for the southwest. Grows rapidly, withstands drought, stays green all winter. Can be sheared to any height and in any shape desired.

3 feet35c each; \$3.50 doz.; \$25.00 100

2 feet25c each; 2.50 doz., 15.00 100

Hardy Vines and Climbers

Ampelopsis - Boston Ivy

The best known of all vines. Clings to brick and stone, clinging very close to the surface. Deep green in summer, changing to rich crimson in the fall. Price, 50c each.

English Ivy

A beautiful dark green, evergreen vine. Splendid as a ground cover in shady places where grass will not grow, beautiful on trellis; very effective for covering graves in our cemeteries, fine for retaining walls and rockeries and to cover the walls of the house. Price, 50c each.

Honeysuckle

Scarlet Trumpet. This variety of Honeysuckle is a favorite with everyone. Price, 35c each.

Hardy Japan. Flowers when opening become buff colored; very sweet scented. Price, 35c each.

Clematis

Paniculata. A rapid, vigorous growing vine; foliage dainty and pleasing; flowers white, star shaped, produced in masses during midsummer and fall, on long shoots. Price, 50c each.

Antigonon leptopus - Mexican Love Vine

Also called Queen's Wreath. A perennial vine, with sprays of glowing pink flowers all summer. The vine dies in the winter and comes up again in the spring. The roots should be protected with a mulch of straw or rotted leaves during the winter. Price, 35c and 50c each.

Vinca Minor or Trailing Myrtle

This is a beautiful vine to grow over rockeries and under trees and shrubs in the shady places, or to cover ugly places. Has beautiful dark green leaves, with blue flowers that bloom early in the spring. Price, 30c each; \$3.00 doz.

Wistaria

A wonderfully beautiful climber from Japan. Grows rapidly, being particularly well adapted for covering pergolas and fences. Blooms in April, immense clusters of beautiful flowers. Can supply white and purple. Price, 75c each.

Ampelopsis - Boston Ivy.

Shrubs

There is nothing that helps to beautify your yard more than judiciously planted shrubs, trees, vines and evergreens. Mass your shrubbery at the back and along the boundary lines, also against the foundation of the house. Plant the taller growing sorts at the back and those of low growth at the front. Use care in selecting plants. We offer only such varieties as we have found from our own observation to have given best results in Texas. Most of these shrubs also make beautiful specimens where planted for this purpose.

Abelia Grandiflora

This is a beautiful evergreen shrub of dwarf, but graceful growth. Has beautiful bright, shining green leaves which assume a metallic hue in winter. From early summer until frost the bush bears in profusion clusters of small, fragrant, trumpet-shaped flowers, tinted outside with pink, and waxy white within. Beautiful as a specimen or in massed planting. In shrubbery beds should be planted at the front. Price, strong plants, 75c and \$1.00 each.

Althea - Rose of Sharon

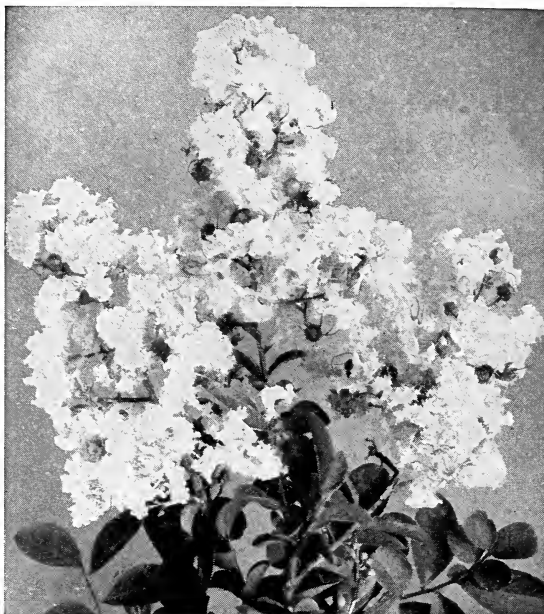

Most people are familiar with Altheas. They stand our hot, dry summers perfectly, and will attain a height of 10 to 12 feet. Can be planted singly, grouped in shrubbery beds, or can be used for hedges. We can supply double pink, double white, single lavender and single white. Price, 35c and 50c each.

Crape Myrtle

This is one of the most gorgeous of all blooming shrubs for the south. Blooms throughout the entire summer and withstands the drought splendidly. Can be used for individual specimens planted among shrubs, or makes a beautiful hedge when pruned. We can supply two colors, pink and scarlet. Price, 50c each.

Deutzia
Pride of Rochester.

Crape Myrtle.

Buddleia - Butterfly Bush

Also called Summer Lilac. So called because the flowers attract the butterflies, and if there are many butterflies in the region they will swarm over the bush while in bloom. It is a strong growing shrub, with weeping branches, and at the end of each branch is a pendant of heliotrope-like flowers of beautiful lavender color. This is one of the most admired and sought after shrubs. Of quick and easy growth, attains a height of 5 to 8 feet. Price, 35c and 50c each.

Deutzia - Pride of Rochester

We recommend this shrub very highly. It is one of the most beautiful early flowering shrubs, and blooms a short time after Bridal-wreath, and about the same time as Syringa. Grows 5 to 6 feet tall. Fine for shrubbery beds or individual specimens. Flowers double, white, back of petals faintly tinted with pink. Blooms about the middle of April and keeps on blooming 3 or 4 weeks. When in bloom is a solid mass of white. Price, 50c each.

Forsythia Intermedia - Golden Bell

This is a beautiful shrub, attaining a height of from 8 to 10 feet, with slender, arching branches, covered with beautiful golden-yellow flowers produced in great profusion in March. Price, 50c each.

Honeysuckle

Upright. Blooms in early February before leaves come out. Has sweet white flowers. Each 35c.

Pink Tartarian. Beautiful rose colored flowers. 35c each.

Red Tartarian. Beautiful red flowers. 35c each.

Hydrangea

When given rich, moist soil, where they are protected from the afternoon sun of summer, and the plants kept well enriched, there is nothing more attractive than a mass of well developed specimen Hydrangeas.

Arborescens (Hills of Snow). A recent introduction of great value. Blooms very large, snowy white. Begins to bloom in April. Price, 75c and \$1.00 each.

Paniculata Grandiflora. Produces immense panicles of pure white flowers, one of our most valuable shrubs. Flowers in July, lasts for several weeks. Price, 75c and \$1.00 each.

SHRUBS—Continued.**Hypericum Moserianum - Golden St. John's Wort**

This is a beautiful dwarf shrub, attaining a height of 2 to 3 feet. Fine to plant in front of shrubbery beds. In Dallas this shrub is almost an evergreen. Leaves dark green, has beautiful, large single, bright golden-yellow flowers 2 inches in diameter. Begins blooming in May. You will be highly pleased with this shrub. Price, 75c each.

Indian Currant

A beautiful dwarf growing native shrub, with white flowers in spring, followed by a profusion of red berries which stay on the shrub all during the winter and make a beautiful display. Very hardy and drought resisting. Price, 35c and 50c each.

Bird of Paradise

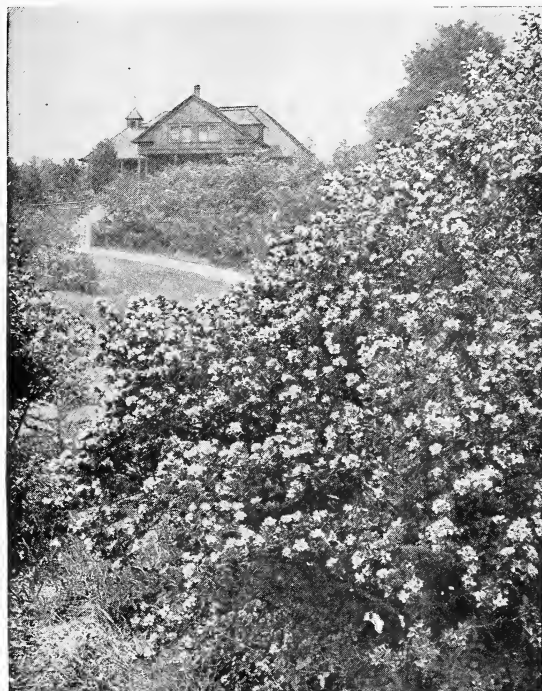

This is a beautiful shrub or tree, of beautiful lace-like foliage resembling mesquite. Begins blooming in May, flowers beautiful orange color, with long, brilliant stamens protruding 3 to 5 inches. Stands dry weather to perfection. You will like this shrub. Price, 50c and 75c each.

Lilacs

Everyone is acquainted with the old fashioned Lilac. We can supply the purple, which we consider to be the best. Price, 50c each.

Mock Orange, or Philadelphus

Very few shrubs are more beautiful than the old fashioned Syringa. The long branches are covered with a profusion of beautiful starry, white flowers during April and May. Suitable for massing with other shrubs or planted as specimens. Grow from 5 to 8 feet high. Price, 50c each.

**Hypericum Moserianum.****Abelia Grandiflora.****Pomegranate**

Shrubs have glossy green leaves, beautiful double salmon colored flowers. Price, 50c each.

Spiraea

Van Houttei. (Bridal Wreath). This is probably the most beautiful early blooming shrub grown. They are about the first shrub to bloom in the spring. Splendid for massing, or to grow in shrubbery beds, also can be used for individual specimens, or for hedges. The plants when in bloom are solid masses of white flowers. Can supply strong plants. Price, 35c and 50c each.

Staghorn Sumach

Has beautiful feathery foliage that turns red in the fall. Easy to grow and very beautiful. Price, 50c each.

Tamarix

Estivalis (Salt Bush). This is a hardy, graceful growing shrub, with beautiful plume-like foliage, and a profusion of beautiful pink flowers when in bloom. Begins to bloom about the beginning of May; grows 8 to 10 feet. Price, 50c and \$1.00 each.

Flowering Willow

A native of Texas, leaves resembling the Willows, flowers trumpet shaped. Blooms from May to fall. Beautiful lace-like flowers in clusters. Colors, purple, lilac and white. Height 10 feet. Price, 50c and 75c each.

Weigela

This is a beautiful, hardy, blooming shrub, among the showiest of the garden shrubs, producing in early spring great masses of beautiful pink flowers. Blooms in May and June. Price, 50c each.

Columbia Roses.

Hardy Garden Roses

Every garden should provide a space for Roses, as there are few other flowers that will give as much pleasure. Any good, well drained garden soil enriched with fertilizer will give excellent results. Our special Bone Meal is the best fertilizer to use. When you receive rose bushes, in order to have the best results in growing them you should treat them as follows: If they should be a little dry soak them in water for a few hours, then trim out the wiry growth leaving only the stout canes. Cut these back to about 4 to 6 inches, depending on the vigor of the plant. Then trim the roots that are broken, with a sharp knife. Have the holes of sufficient size to accommodate the roots without crowding them, set the plants about 2 inches deeper than they were growing in the nursery rows. After planting firm the soil well around the roots and give them a good watering. During the winter months it is a very good idea to mulch your rose beds with some well rotted leaves, litter, or some well rotted cow manure.

We offer the following 2-year-old roses, which are ready for shipping during the months of November, December and January when the plants are dormant.

Alexander Hill Gray. One of the most beautiful Roses grown, and is considered to be the largest and best pure yellow Tea Rose yet produced. Strong grower and very floriferous. 50c each.

American Beauty. Has always been called the Queen among Roses. The glory, charm, magnificence of growth, and exquisite form of flowers are all beyond description. Color, deep glowing crimson, flowers very large. 75c each.

Bridesmaid. One of the best pink garden roses grown. Strong grower and fine bloomer. Flowers very double. 50c each.

Bride. Pure white. 50c each.

Col. R. S. Williamson. Another fine strong growing Rose. Color, beautiful, satiny white with deep blush center, flowers very large. 50c each.

Columbia. One of the finest Roses of recent introduction. Color, bright pink deepening as it opens to a glowing, deep pink. The striking peculiarity of this Rose is that the shades all deepen as the Rose opens. A strong grower and splendid bloomer. You will like this rose. 50c and 75c each.

Etoile de France. Fine strong growing variety of Rose. Flowers are lovely shade of rich crimson velvet, very fragrant. 50c each.

La France. The standard pink Rose that is admired so much by everyone. No garden is complete without La France. The color is silvery rose with pink shades, and satin-like petals of unsurpassable beauty. Flower is large and deliciously fragrant. 75c each.

Etoile de Lyon. A standard bright sulphur yellow Rose, of fine form, one of the best and most beautiful yellow Roses for general planting. 50c each.

F. R. Patzer. Creamy buff, reverse of petals delicate pink, changing as the petals reflex to a rich rosy pink. Large flowers of fine substance, freely produced on fine strong stems. 50c each.

Francis Scott Key. A beautiful double Rose of great substance. Color, red shading to cerise. Very large, with a profusion of petals opening to a high center. 75c each.

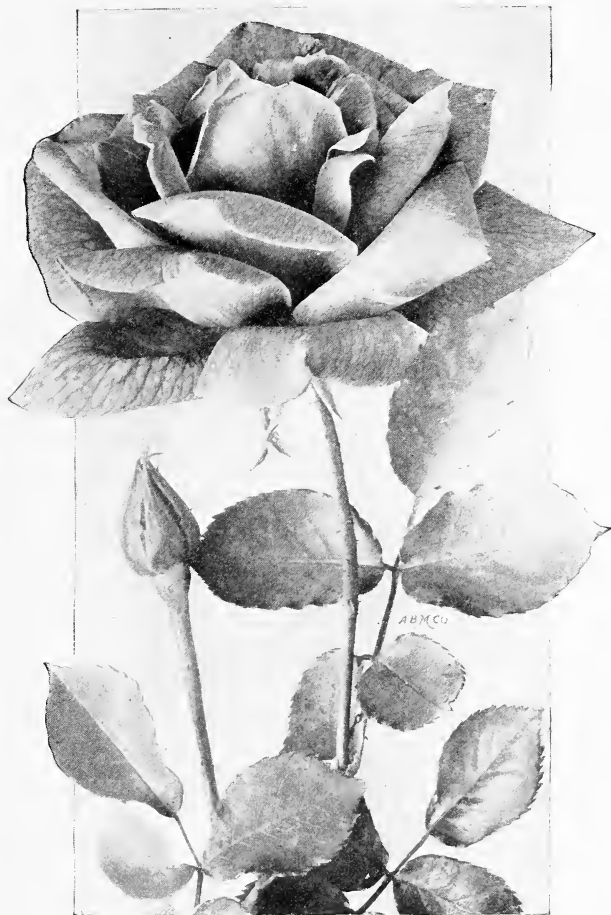

Frau Karl Druschki or White American Beauty. This grand Rose is becoming renowned as the highest type of its class. Is a strong, hardy grower, flowers of immense size produced with great freedom. Color is a marvelous white without tinge of yellow or any other shade. 75c each.

Golden Gate. Strong grower, producing freely, long beautiful pointed buds, opening to large, double flowers, creamy white, tinted with soft yellow at the base of broad petals, bordered with clear rose. This is a wonderfully fine Rose for cut flowers. 50c each.

Gruss an Teplitz. Very hardy, free blooming Rose. All during the season it is a mass of vivid, dazzling, fiery crimson, fragrant flowers, produced on long stems. This is certainly a fine garden variety. 50c each.

Helen Gould. An incessant grower and bloomer. Hardy everywhere. Has long beautiful buds, and full beautiful flowers of rich, rosy crimson, resembling a rich, ripe watermelon. 50c each.

ROSES—Continued

Gruss an Teplitz.

Marie Van Houtte. A very strong growing Rose. Color, rich, creamy white, faintly tinted with rose. Extra large, very double and delightfully scented. A very free bloomer. 50c each.

Mrs. Aaron Ward. One of the most delightful Roses that have been introduced in recent years, in a color that catches the eye at once. Strong grower, making long stiff stems. The color is very striking, being of an Indian yellow, shading to lemon cream at edge of petals. Splendid for cut flowers. 50c each.

Mrs. Geo. Sawyer. Brilliant rose pink flowers, large and well formed. Free grower, sending up strong canes, carrying beautiful heavy leathery foliage. 50c each.

My Maryland. Salmon-pink of a soft pleasing shade, with long stems and long pointed buds. Exquisitely fragrant. 50c each.

Paul Neyron. One of the finest and largest growing roses we know of. No collection is complete without it. Produces magnificent bright, deep rose colored blooms on long stems. Deliciously scented. 75c each.

Perle des Jardins. Deep straw yellow, sometimes deep golden yellow. Large bud, beautiful bloom. 50c each.

President Taft. One of the most remarkable of all pink Roses. It has a shining, intense deep pink color possessed by no other Rose. Perfect in form and handsome foliage. 50c each.

Red Radiance. Very few Roses have equalled and none excelled Radiance as a garden rose. 50c each.

White Bougerre. We find this variety to be particularly adapted to the south. It is a strong grower and splendid bloomer. Has beautiful, pure ivory white flowers that are very double, and is splendid for cut flowers. 50c each.

Jonkheer J. L. Mock. One of the newer Roses. Flowers are produced on great, erect, stiff stems, the growth is marvelous in its freedom. Has beautiful foliage, flowers are large, beautiful form, deep and double. Exquisitely fragrant. Color, bright, rich pink, faced with carmine. 50c each.

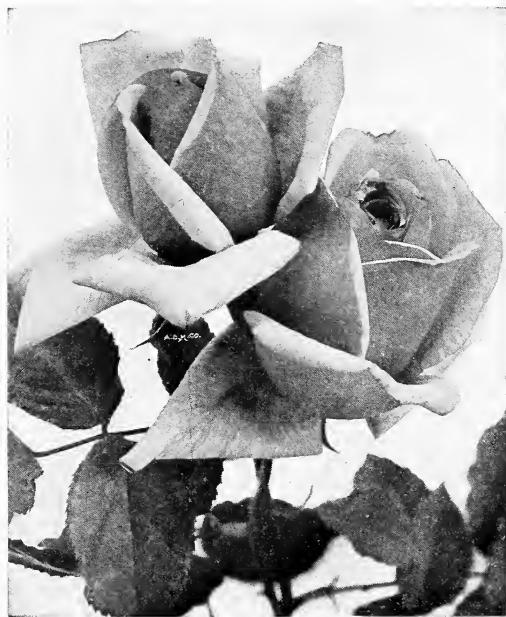

K. A. Victoria. This, we consider to be the finest white Rose that is grown in the south. We grow it in large quantities. They stay in bloom longer than any other white Rose we know of and are splendid for cut flowers. Flowers are large and double. 50c each.

Madame Jules Grolez. Clear, deep rose, shaded yellow at base, with long pointed buds. Splendid for bedding and massing. 50c each.

Madame Caroline Testout. We consider this to be one of our finest pink roses. You will be more than pleased with this variety. Color is a brilliant, satiny rose, deepening at center, and bordered with silvery rose. Immense broad petals and extremely large flowers. 50c each.

Maman Cochet. This is another extra fine rose that gives fine results wherever planted. Color, rich rosy pink, shaded silvery rose on outer petals. Exquisite in color and grace of form from bud to bloom. Delightfully fragrant, and fine for cut flowers. 50c each.

White Maman Cochet. Same description as above except the color. 50c each.

Jonkheer J. L. Mock Rose.

ROSES—Continued

Wm. R. Smith. Another fine rose that gives excellent accounts of itself in the south. Is a very strong grower, flowers are large, full and double, exquisitely formed. Color, creamy white with shadings of pink. Flowers on long, stiff stems. Highly recommended. 50c each.

Polyantha or Baby Rambler Roses

These are a class of miniature Roses derived from the Polyantha. They are of dwarf habit and bloom so freely as to completely cover the plant with bloom all through the season. The plants are fine for bedding or for borders.

Baby Doll. This delightful little Sweet-heart Rose is a wonder. The color is absolutely new and quite startling in its brilliancy, being golden-yellow, tipped with clear, bright cerise. The foliage is narrow, long and sharply pointed to a deep, glossy green, a very beautiful setting for the lovely little doll Roses. 50c each.

Baby Echo. Soft pink petals, becoming reflex with carmine-rose when expanded. Grows vigorously, flowers freely in clusters. 50c each.

White Maman Cochet Roses.

Climbing Roses

American Beauty. Everyone knows the American Beauty Rose. The climber is the same color as the bush variety, which is rosy crimson. Is a fine grower and in great demand. 75c each.

American Pillar. This wonderful Rose is always admired. Has beautiful, large, single flowers of rich, rosy pink approaching brilliant carmine, with just a glint of white at centers, and golden yellow stamens, beautiful green foliage. Produces immense vigorous canes, and broad, strong, green shining leaves, which do not mildew like some of the other varieties. 50c each.

Dorothy Perkins. This is a very fine climbing Rose of the Rambler type. Color, beautiful shell pink, grows in clusters. Very sweet scented. 50c each.

Hiawatha. This is one of the crimson Rambler varieties of Roses. Beautiful single flowers in clusters, ruby carmine with white eye, and golden stamens. Always admired. 50c each.

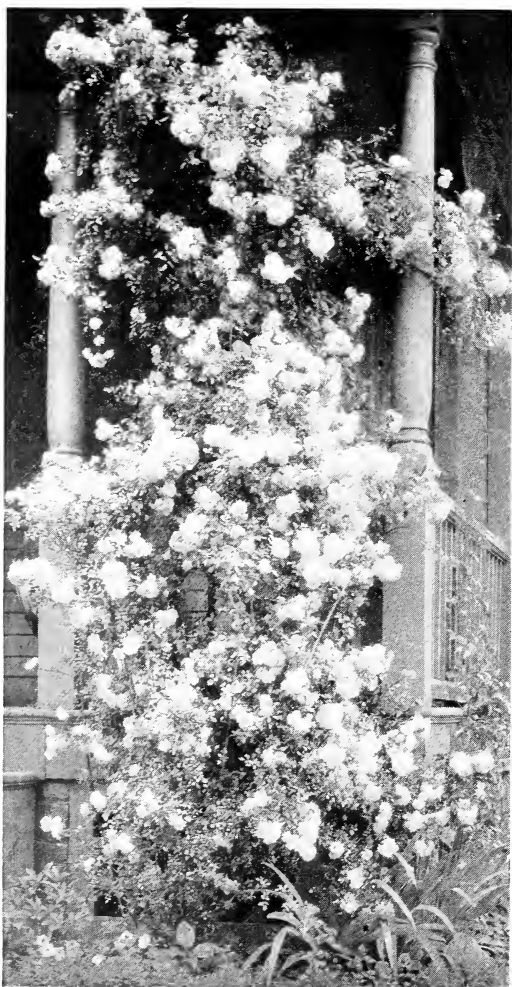

Silver Moon. One of the Wichuraiana Roses. Single flowers, very large, being 4½ inches and over in diameter, pure white in color. The large bunch of yellow stamens in the center add to its attractiveness. 50c each.

Reine Maria Henriette. One of the best of all climbing Roses we know of. It is one of the first to bloom and makes a wonderful display. Color is a deep cherry red. We highly recommend it. 50c each.

White Maman Cochet. Very large, beautifully formed in bud and bloom. Vigorous grower, producing flowers in abundance. 50c each.

Excelsa, Red Dorothy Perkins. This Rose is nearly an evergreen and produces lovely, crimson-scarlet double flowers in large clusters. Color is intense crimson maroon tipped, and the petals tinged with scarlet. We consider this to be the finest Rose of the Crimson Rambler varieties. 50c each.

Tausendschoen (Thousand Beauties). The flowers when opening are the most delicate shade of pink, might be described as white, delicately flushed pink, changing to rosy-carmine. It gets its name from the variation in coloring of its many flowers. This is a very vigorous grower and wonderful bloomer, the finest in the early spring, being a solid mass of flowers of beautiful color. This Rose is much admired and very popular. 50c each.

Dorothy Perkins Roses

Shasta Daisies.

Hibiscus.

Foxglove - Digitalis.

Hardy Perennials—Old-fashioned Garden Flowers

One of the chief delights we get from owning a garden, is having flowers enough to give to one's friends as well as have them for house and table decoration. The beauty, variety, and lasting qualities of Perennials make them especially useful as cut flowers. They are also valuable for adding attractiveness and color to the borders and beds. A comparatively small collection will enable you to have some flowers in bloom all summer through. The word Hardy Perennial means that they are plants which may be allowed to remain permanently where planted. All they require is to divide the roots occasionally. The foliage dies down in the winter, coming forth again in the spring with renewed vigor.

Chrysanthemums (Hardy Pompon). Popular not only on account of their usefulness in the hardy border, but also valuable for cut flowers. We have a nice assortment of varieties. Price, 15c each; \$1.50 doz.

COREOPSIS (Lanceolata Grandiflora). Beginning to flower early in May, by keeping the flowers cut off they will continue to bloom a long time. Makes a mass of beautiful, golden-yellow flowers on long, graceful stems. Fine for cutting. Price, 30c each, \$3.00 doz.

DAISY, Shasta. Strong growers, producing large, beautiful white flowers, with golden centers, on long stems. Fine for cutting. Price, 10c each; \$1.00 doz.

Daisy, Alaska. This variety is similar to the Shasta Daisy, only the flower is larger. Price, 25c each, \$2.50 doz.

Daisy, King Edward. This is a very large Daisy, of the same type as the Shasta, only larger. Price, 25c each; \$2.50 doz.

FOXGLOVE (Digitalis.) This old fashioned favorite is especially stately and elegant in summer, and produces bold masses of leaves and beautiful flowering spikes. Price, 30c each; \$3.00 doz.

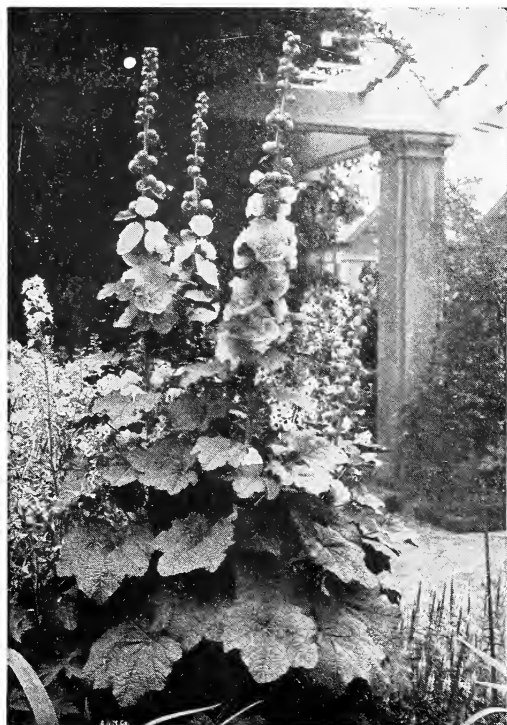

GAILLARDIA (Blanket Flower). Makes one of the most gorgeous displays of all perennials. Flowers often measure 3 inches in diameter, on 2-foot stems. A hard center of deep maroon is thickly bordered by petals of orange-yellow. Price, 25c each; \$2.50 doz.

GOLDEN GLOW. A magnificent, stately border plant, producing masses of double, golden-yellow, cactus-like flowers from July until fall. 4 to 6 feet tall, very hardy, and easy to grow. Should be in every collection. Price, 30c each; \$3.00 doz.

HOLLYHOCKS. Everyone is acquainted with the old fashioned Hollyhock. It has long spikes of short stemmed, rose-like flowers. Particularly well suited to plant against the wall or fence, or in the background of a hardy perennial border. Price, 30c each; \$3.00 doz.

GYPSOPHILA (Baby's Breath). The flowers are small, double, starry-white, in long, feathery sprays. Very highly esteemed for cut flowers. Price, 30c each; \$3.00 doz.

HIBISCUS (Hardy Giant Flowering Marshmallows). We recommend this plant very highly. It is best planted in moist ground, grows from 4 to 6 feet high, blooming during the months of June and July. Immense flowers of wonderful beauty, some being white with crimson eye, others being crimson and pink. Price, 50c each.

Hollyhocks.

HARDY PERENNIALS—Continued

LARKSPUR. Beautiful, hardy border plant. Their stately habit, and the fragrant spikes of bloom, gorgeous in color, make them especially attractive. Assorted varieties. Price, 30c each; \$3.00 doz.

PHLOX, Hardy. These are among the very showiest and most valuable of hardy plants. We offer the following varieties:

Bridesmaid. White, with large crimson-carmine centers. 30c each; \$3.00 doz.

Mrs. Jenkins. The best white for massing. 30c each. \$3.00 doz.

Miss Lingard. This grand, free-flowering, white flower is a universal favorite, and is the first to bloom. 30c each; \$3.00 doz.

Beacon. Brilliant cherry-red.

Rheinlander. Salmon-pink, large flowers. 30c each; \$3.00 doz.

PINKS, Hardy. These are favorites of the old fashioned garden. Assorted varieties. Price, 30c each; \$3.00 doz.

PLATYCODON (Japanese Bell Flower). Beautiful free-flowering perennial. Considered to be one of the most beautiful plants in the hardy garden. White and blue. Price, 30c each; \$3.00 doz.

SWEET WILLIAM. Too well known to need description. 30c each; \$3.00 doz.

SCABIOSA (Pincushion Flower). Elegant, hardy plant, which should be grown by everyone. They are fine for cut flowers, blooming all during the summer; stand our hot weather to perfection. Price, 30c each; \$3.00 doz.

SUNFLOWER, Hardy. Easy culture, large, beautiful yellow flowers, borne on long stems, fine for cut flowers. Price, 30c each; \$3.00 doz.

Hardy Phlox, Miss Lingard.

TRITOMA (Red-hot Poker Plant). Beautiful orange-scarlet flowers, shading to salmon-rose at the edge. Very showy, and should be in every garden. Price, 30c each; \$3.00 doz.

VIOLETS. Single, blue. Price, 50c doz.

Flower Seeds for Fall Sowing

There are a great many people who are not aware of the fact that fall is the best time to sow a number of the different varieties of flower seeds. By sowing in the fall the plants get well established and bloom early in the spring. We recommend the following varieties of flower seeds which should be sown during the fall months.

ANTIRRHINUM (Snapdragon). One of the most valuable flowers, makes a fine show during the early spring and summer and are fine for cut flowers. Dwarf mixed and tall mixed. Pkt., 10c; 3 pkts., 25c; oz., 75c.

CANDYTUFT. Is very hardy, and very often will bloom all during the winter. Fine for beds and borders. Giant Rocket, large white, light purple and lilac. Pkt., 10c; 3 pkts., 25c; oz., 50c, postpaid.

CENTAUREA CYANUS (Bachelor Buttons). These are favorites in all sections of the country. Produce bright colored single and double flowers of purple, blue and white. Pkt., 10c; 3 pkts., 25c; oz., 40c, postpaid.

COREOPSIS (Lanceolata Grandiflora). Excellent for cut flowers. Color, bright yellow. Easy to grow. Pkt., 10c; 3 pkts., 25c, postpaid.

HOLLYHOCKS. This splendid old fashioned perennial should be in every garden. Mixed varieties. Pkt., 10c; 3 pkts., 25c, postpaid.

LARKSPUR. We do not know of any flower that will make more of a show in early spring than the Larkspur. A great many people make the mistake of waiting until spring to sow the seed. Seed should always be sown in the fall. They make beautiful beds, and are also fine for borders. You should by all means have a bed of Larkspur. We handle two varieties, the tall and the dwarf. The dwarf blooms earlier than the tall, so by sowing some of each you can have a continuance of bloom for a long time. Poppies mixed with Larkspur give a fine effect. Dwarf Rocket, mixed, also tall double mixed. Pkt., 10c; 3 pkts., 25c; oz., 75c, postpaid.

PANSIES. This beautiful flower needs no introduction. Seed should be sown in August and September, in beds, and then when the plants are large enough, transplanted to permanent location. They are easy to grow. Give them good rich soil and cultivate well and you will have beautiful flowers all during spring.

Giant Trimardeau. Mixed. Pkt., 10c; ¼ oz., 75c; oz., \$2.50, postpaid.

Choice mixed. Pkt., 10c; ¼ oz., 50c; oz., \$1.75, postpaid.

Nicholson's Mammoth Large Flowering. Mixed. Pkt., 30c; ¼ oz., \$1.00; oz., \$3.50, postpaid.

Pansies.

Sweet Peas.

FLOWER SEEDS—Continued

POPPIES. Poppies are one of the showiest annuals, make beautiful beds and borders. They can also be mixed with Larkspur, and make a wonderful display planted in this way.

Tulip Poppy. Single bright scarlet tulip-shaped flowers, black spot showing at the base of each petal. Pkt., 10c; $\frac{1}{4}$ oz., 25c; oz., 75c, postpaid.

Iceland. Mixed. Graceful, delicate variety, with white, orange and yellow single blossoms, the petals resembling crumpled tissue paper. Excellent for cutting. Pkt., 10c; $\frac{1}{4}$ oz., 40c; oz., \$1.50, postpaid.

Shirley Poppy. The most beautiful type of Poppy, having soft hairy foliage, and immense flowers. Single blossoms white, pink and apricot, and shades of red and scarlet. Petals very dainty and look as if made of crepe paper. Pkt., 10c; $\frac{1}{4}$ oz., 25c; oz., 75c, postpaid.

Peony Flower. Double mixed. Large, showy, double fringed flowers of various colors. Pkt., 10c; oz., 35c, postpaid.

PHLOX. This hardy annual is unequalled for the magnificent display of its many brilliant colors, fine for beds and borders.

Phlox Drummondii-Grandiflora. Mixed. Pkt., 10c; 3 pkts., 25c; oz., \$2.00, postpaid.

Phlox Drummondii. Fine mixed. Pkt., 10c; 3 pkts., 25c; oz., \$1.00, postpaid.

PINKS, Hardy Garden. Old fashioned Pinks should be in every garden. Fine for beds and borders, delightfully fragrant. Double mixed, also single mixed. Pkt., 10c; 3 pkts., 25c; oz., \$1.00, postpaid.

STOKESIA (Cornflower Asters). Flowers rich, light blue like Giant Cornflowers. Very distinct, fine for cut flowers. Pkt., 10c; 3 pkts., 25c, postpaid.

SWEET WILLIAM. Excellent for beds and borders, fine for cut flowers. Pkt., 10c; 3 pkts., 25c, postpaid.

SWEET PEAS. Seed should be sown in September or October, so as to have the plants well established before cold weather starts in. Have the dirt drawn toward the peas, or some brush or straw put along each side of the rows during severe weather. This will protect them and you can have peas in bloom early in the spring. To have best results with Sweet Peas it is a good idea to dig a trench about ten to fifteen inches deep and about six inches across, fill this trench with good rich soil to within six inches of the top, then plant the Sweet Peas thinly in the trench, covering them about two inches deep. As the peas begin to grow the trench can be gradually filled up. If the peas are too thick thin them out. After they have gotten a good start, a trellis of some kind should be used so that the Peas can have something to climb on. In order to have the peas bloom a long time the flowers should be gathered regularly and given plenty of water during the flowering season.

New Extra Early or Winter Flowering Spencer Sweet Peas

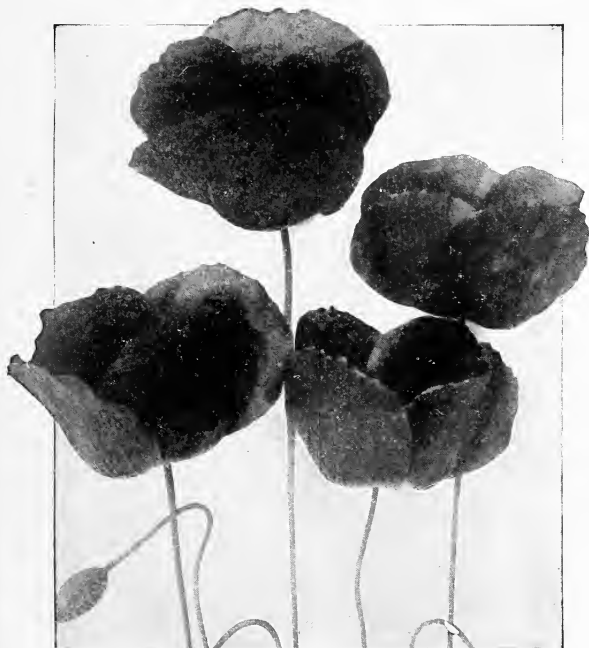

These varieties bloom very much earlier than ordinary Sweet Peas.

Extra Early Spencer Sweet Peas. Choice mixture of the best varieties. Price, pkt., 15c; oz., 75c; $\frac{1}{4}$ lb., \$2.50, postpaid.

We can supply the Extra Early Spencer Sweet Peas in separate colors if wanted.

Standard Spencer Sweet Peas. Choice mixture of the best varieties. Price, pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50, postpaid.

Eckford's Choice Mixed Sweet Peas. Choice mixture of the best varieties. Price, pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c; lb., \$1.50, postpaid.

Tulip Poppies.

PREPARED FISH FOOD. Price, pkg., 20c, postpaid.

Fresh Home Grown Cut Flowers from Nicholson's Farm

Flowers add greatly to the beauty of Home, but the very high prices which the city florist is compelled to charge because of high rents and other expenses, place them beyond reach of many.

Nicholson's Flower Farm, located at White Rock, one-fourth of a mile East of the Spillway, is prepared to supply fresh cut flowers at prices within the reach of all. In addition to cut flowers we also have plants for bedding, shrubs of all kinds, and a large assortment of Roses. Will be glad to have you look these over and make your selection for fall planting.

We also have vegetables and vegetable plants of different kinds, and another year will have a fine lot of fruit, such as Plums, Peaches, Blackberries and Figs.

We extend to you a cordial invitation to visit our farm when driving out to White Rock, and let us show you the nice assortment we have to offer, being under no obligations to buy. Should you be unable to call at the farm and wish flowers, if you will phone our store, X4622, at the foot of Commerce St., we will be glad to give you any information you may desire and to quote you prices.

Hoping to have the pleasure of a visit from you in the near future, we are,

Yours very truly,
NICHOLSON'S SEED STORE.

Alfalfa.

Nicholson's Tested Field Seeds

Alfalfa

Nicholson's Tested Alfalfa seed. This profitable hay crop yields four to five cuttings a year, of the most nutritious hay. Sow 20 pounds per acre in September, October or November.

Nicholson's Purity Brand Hairy Peruvian. Price, lb., 45c, postpaid. Not prepaid, 10 lbs., \$3.50.

Fancy Smooth Leaf Peruvian. Price, lb., 40c, postpaid. Not prepaid, 10 lbs., \$2.75.

Nicholson's Purity Brand Fancy. This is the finest quality of American grown Alfalfa seed that we are able to buy. It is bright, thoroughly recleaned and tested. Price, lb., 40c, postpaid. Not prepaid, 10 lbs., \$3.00.

American Grown Fancy. This is a first class quality of Alfalfa seed, and is the kind planted by the average farmer. Price, lb., 40c, postpaid. Not prepaid, 10 lbs., \$2.75. Ask for prices in larger quantities.

Barley

Nicholson's Beardless Winter Barley. Very hardy, and makes fine pasture. Sow about two bushels per acre in the fall. Price, not prepaid, bu., \$1.50; 10 bu., \$14.00.

Nicholson's Bearded Winter Barley. Makes excellent winter pasture and yields from 50 to 75 bushels per acre. Price, not prepaid, bu., \$1.50; 10 bu., \$14.00.

Nicholson's Tested Clover Seed

Sweet Clover resembles Alfalfa in appearance, habit of growth, and in food content. It thrives in a variety of soils, growing well in almost pure sand, in silt, loam and hardy, rocky and decidedly poor clay soil devoid of humus. The long, deep tap root enables it to obtain moisture in times of drought and prevents winter killing. Sweet Clover is used for hay and pasture. Horses, cattle, sheep, hogs and poultry all feed upon and relish sweet clover. Can also be sown to good advantage during the fall. Some people sow it with oats. Would advise sowing at the rate of 15 lbs. per acre.

Biennial White Flowering Sweet Clover. Nicholson's Fancy Hulled Scarified Seed. Price, lb., 30c, postpaid. Not prepaid, 10 lbs., \$2.00; 100 lbs., \$14.50.

Nicholson's Fancy Hulled Seed, not scarified. Price, lb., 30c, postpaid. Not prepaid, 10 lbs., \$1.75; 100 lbs., \$13.50.

Hubam Annual Sweet Clover. When planted alone Hubam makes a growth of 6 feet average in 140 days. The hay will yield 3 tons per acre cured in 90 days. The hay, when properly cut and cured is relished by stock of all kinds. It stands the dry weather remarkably well, in fact, does not know the meaning of drought when once started. It has been known to make a growth of 5 feet in 98 days. Price, lb., \$1.50, postpaid. Not prepaid, 10 lbs., \$12.00. Ask for prices in larger quantities.

BURR CLOVER

An annual largely used in the south for winter pasture. If you will sow Burr Clover on your Bermuda grass sod this will give you green pasture the year round. Disc over your Bermuda grass, then sow the Burr Clover in September or October.

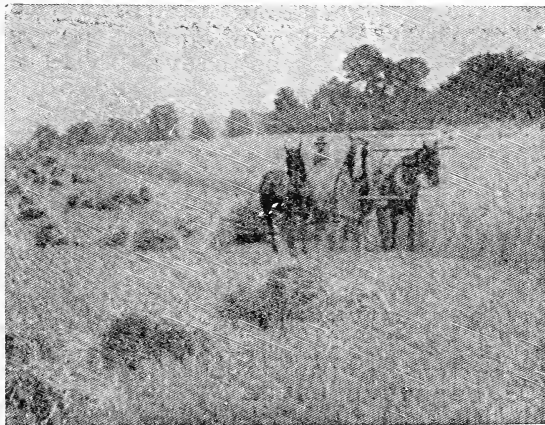

Nicholson's Fancy Hulled Burr Clover. Sow 20 lbs. per acre. Price, lb., 40c, postpaid. Not prepaid, 10 lbs., \$3.00.

Southern Spotted Leaf Burr Clover. (In the burr.) Sow 30 to 40 lbs. per acre. Price, lb., 35c postpaid. Not prepaid, 10 lbs., \$2.50.

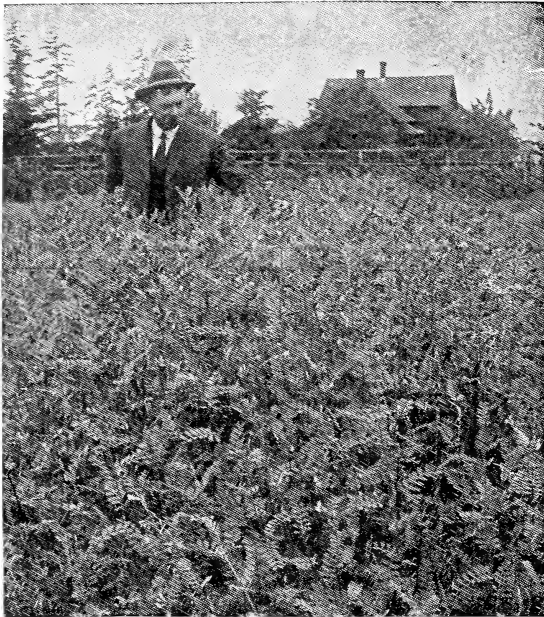

Lespedeza or Japan Clover. Very valuable for the south. Spreading growth, stands excessive drought and grows in poor soils. Sow 20 lbs., per acre. Price, lb., 40c, postpaid. Not prepaid, 10 lbs., \$3.00.

White Clover. Fine to mix with other grasses for lawns. Makes good pasture sown with other grasses. Sow 15 to 20 lbs. per acre. Price, lb., 70c, postpaid. Not prepaid, 10 lbs., \$6.00.

Crimson Clover. Should be sown in the fall, making a fine early feed. Sow 15 to 20 lbs., per acre. Price, lb., 35c, postpaid. Not prepaid, 10 lbs., \$2.50.

Nicholson's Winter Barley.

Vetch.

Oats

Nicholson's Extra Early Red Rust Proof. Without doubt the best oats grown in the south. These Oats stand up well, mature about ten days to two weeks earlier than the ordinary Texas Red Oats, and ripen all at the same time. They grow about 3½ to 4 feet high, on good stiff stems, do not blow down easily and are practically beardless, which makes them easy to sow. Being earlier than other Oats will often make a difference in yield of 10 to 25 bushels per acre. Being able to place them on the market earlier will also make a difference in price of 5 to 15c a bushel. Price, pk., 35c; bu., \$1.00; 10 bu., \$9.50, not prepaid. Write for prices in larger quantities.

Nicholson's Purity Brand Fancy Red Rust Proof Oats. We recommend our Fancy Recleaned Red Rust Proof Seed Oats to particular farmers who want the best quality of seed. Will be glad to submit samples. Price, pk., 35c; bu., \$1.00; 10 bu., \$9.00, not prepaid. Write for prices in larger quantities.

Choice Red Rust Proof. A good many people want to buy an ordinary good quality of Red Rust Proof Oats, but do not want to buy the higher grades. To such people we offer our Choice Red Rust Proof Oats. Price, pk., 30c; bu., 90c; 10 bu., \$8.00, not prepaid. Write for prices in larger quantities.

Rye

Rosen Rye. This wonderful Rye is a heavy yielder and furnishes a better quality of grain than any other Rye grown in this country. It produces a strong, vigorous straw, and the grain is large, plump and heavy being fully 50 per cent larger than ordinary Rye. Write for prices.

Black Winter Rye. This is our native Rye, and has long been recognized as one of our best grains for winter pasture. Write for prices.

Vetch

Hairy or Winter Vetch. For fall planting should be sown in August or September; it will cover the ground before frost and make a valuable winter forage crop. Sow 50 to 60 pounds of Vetch with same amount of oats, using the oats for supporting the Vetch. Price, lb., 35c, postpaid. Not prepaid, 10 lbs., \$2.50.

Oregon Vetch. About the same as Hairy Vetch except that it is sown in the spring as well as fall. Price, lb., 25c, postpaid. Not prepaid, 10 lbs., \$1.50.

Wheat

Mediterranean Bearded Blue Stem Wheat. This is perhaps the most popular variety of Wheat grown in North Texas. It is a vigorous growing variety, and stands winter pasturing well. Ask for prices when ready to buy.

Smooth Head. This is the earliest variety of Wheat that we handle, and is preferred by some of the large Wheat growers, as they are able to harvest it before the bearded varieties are ready to cut. Ask for prices when ready to buy.

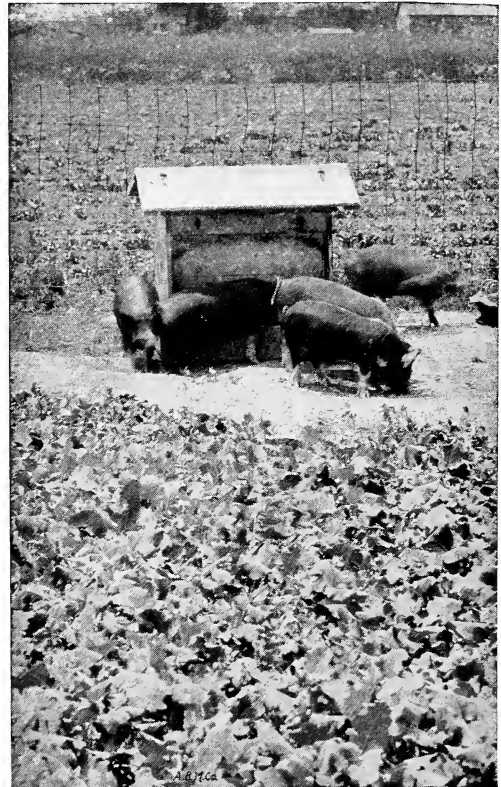

Macaroni or Nicaragua. This variety is claimed to yield better than soft Wheat. Stands dry weather better, and makes excellent pasture. Ask for prices when ready to buy.

Red Turkey Wheat. This is one of the best winter varieties for this part of the country. It is medium hard, bearded, and produces long heads. The grain is large and does not shatter out as badly as some other varieties. Ask for prices when ready to buy.

Kanred Wheat. New Winter Wheat that has taken the country by storm. Developed by the Kansas State Agricultural College, it is a hard Winter Wheat similar to the Red Turkey Wheat but earlier, and is said to be more resistant to rust, and a better yielder than the Red Turkey. Ask for prices when ready to buy.

Rape

Dwarf Essex Rape. Rape is one of the most valuable forage plants. To those of our customers who are not familiar with Rape we will say that it grows somewhat like a cabbage plant before the cabbage begins to head up; however the Rape makes a larger plant, often 18 inches to 2 feet high. Under favorable weather conditions and on good soil Rape will produce from 10 to 25 tons of green forage per acre. Sow in drills at the rate of 2 pounds per acre, or broadcast 6 to 8 lbs. per acre. Price, lb., 25c, postpaid. Not prepaid, 10 lbs., \$1.50. Write for prices in larger quantities.

Dwarf Essex Rape.

A Result of Planting Nicholson's Lawn Grass Seed.

Nicholson's Winter Lawn Grass Seed

After a good many years of experimenting with combinations of different grass seeds we have at last perfected a mixture which contains the right kind of seed in the correct proportions to insure a beautiful green lawn all winter. There are many of these beautiful winter lawns in Dallas, grown from this combination of seeds. When winter comes and flowers, trees and shrubs are bare and black looking, it makes a wonderful difference in the appearance of your home, to have a velvety green lawn.

In planting Winter grass seed it is not necessary to break the earth or plow up your sod. Simply sow the grass seed over the lawn and rake it in at the rate of 1 pound to 400 square feet (20x20), or 80 pounds to the acre. An application of our special lawn dressing or fertilizer is also suggested. Price, lb., 55c, postpaid. Not prepaid, 10 lbs., \$4.00; 100 lbs., \$30.00.

Rhodes Grass

A perennial hay and pasture crop, especially adapted to all sections of the south where the winter temperature does not go below 18 degrees. Sow 5 to 10 lbs. per acre. Price, lb., 65c, postpaid. Not prepaid, 10 lbs., \$5.00; 100 lbs., \$45.00.

Red Top or Herd's Grass

Price, lb., 45c, postpaid. Not prepaid, 10 lbs., \$3.50. Ask for prices in larger quantities.

Nicholson's Special Lawn Dressing

A combination of correct fertilizers for lawns, that will produce amazing results. Apply broadcast at rate of 100 lbs., to 50 feet square of lawn. Price by freight or express, \$5.00 per 100 lbs.

Rescue Grass

This grass is a native of Texas and is one of the finest for winter pasture. If you have any waste land, such as creek banks, fence rows or even timber land, sow it with Rescue Grass and note the fine winter pasture you will have. It comes at a time when other green stuff is scarce, and all kinds of stock are very fond of it. Price, lb., 35c, postpaid. Not prepaid, 10 lbs., \$2.50; 100 lbs., \$20.00.

Bermuda Grass

This is the finest grass for lawns and pasture for the south. Will grow on almost any soil. Sow 5 to 10 pounds per acre. Price, lb., 60c, postpaid. Not prepaid, 10 lbs., \$4.00.

English or Perennial Rye Grass

Very similar to Italian Rye. It makes very heavy leaf growth and is fine for pasture or hay. Does well in mixtures, and is wonderful for lawns. Sow it on Bermuda sod to keep the lawn green in winter and early spring, when the Bermuda is dormant. Sow about 45 lbs. per acre. Price, lb., 35c, postpaid. Not prepaid, 10 lbs., \$2.50; 100 lbs., \$17.50.

Italian Rye Grass

Is one of the quickest growing of all grasses, has very tender stalks and leaves, and, in addition, abundant growth. This grass is an annual so never becomes a pest. Many plant it by itself, but it is also very valuable when planted in mixtures. In Bermuda and other lawns it is valuable during the winter. When the other grasses are dead or dormant the Italian comes up and keeps your lawn green. Sow about 45 lbs. per acre. Price, lb., 35c, postpaid. Not prepaid, 10 lbs., \$2.50; 100 lbs., \$17.50.
